PILLOW TALK

Another beauty revolution coming out of Korea, the cushion compact foundation is having its moment and is a blessing in disguise with its sponge invention for a barely-there, make-up artist finish. Boasting a liquid texture that feels like a BB cream and acts like a foundation, you'll wonder why it wasn't invented sooner.

1. Wonderful Cushion Foundation, Dhs115, Sephora 2. True Match Lumi Cushion Foundation, Dhs75, L'Oréal 3. Miracle Cushion Liquid Compact, Dhs250, Lancôme

SEÑORITA!

Flying to the exotic setting of Cuba for its cruise 2016 show, the cool Cuban girl was very much evident through the beauty as much as the clothes sent down Chanel's catwalk. Make-up artist Tom Pecheux prepped the skin with La Solution 10 de Chanel followed by Les Beiges Tient Belle Mine Naturelle, Les Beiges Poudre Belle Mine Naturelle, Eclat Lumière and Correcteur Perfection for a dewy complexion. He then brushed Les Beiges Healthy Glow (01 and 02) along the cheekbones, filled brows with Multi-colour La Palette Sourcils de Chanel, and created gleaming eyes with Stylo Yeux Waterproof in Pacific Green (925), while Rouge Coco Shine in Shipshape (114) made for the perfect pout. From Cadillac print-dresses to Cuban-inspired skincare, Havana eat your heart out...
